

SYSTEMS SOLUTIONS MAIL-IN REPAIR SERVICE

Gateway eMachines, Acer's, HP Compaq Laptops, Notebooks, Toshiba's, Dell's and Tablet Systems are our specialty. Our Repair Service can install parts, troubleshoot & fix most typical hardware related problems. We do specialize in virus removal, OS installations, or data recovery. Common repairs include: Motherboard Replacement, Power Supply Replacement, Component Level Notebook repair (ex. replace broken dc power jack on motherboard), CPU & Memory upgrades, & LCD replacement. E-mail wfjones@willie-f-jones.net for a free estimate.

1. Turn around time is on average 1-2 business days. Does not include transit time.
2. Original packaging is recommended. If not available, use packaging that is rated for shipping your computer. We recommend taking your computer to a local shipping center and have it packaged and boxed to prevent damage.
3. DO NOT use packaging "peanuts" unless your machine is sealed in plastic. The "peanuts" tend to get inside components if in contact directly. This can cause harm to your machine.
4. Systems Solutions is NOT responsible for lost or damaged items shipped to us. If damage occurs in shipping from poor shipping containers, the cost of replacement parts is the customer's responsibility.
5. We will insure proper packaging and boxes are used for all items shipping back to the customer. Shipping costs are the customer's expense and will be added to the repair.

Terms and Conditions

1. Turn around time is on average 1-5 business days. Does not include transit time.
